Projects.

Buku Pintar - Innovation of Bank Jago Application - OjekUI - Pusaka - Health Doctor - OKK UI 2024 - SiBeasiswa
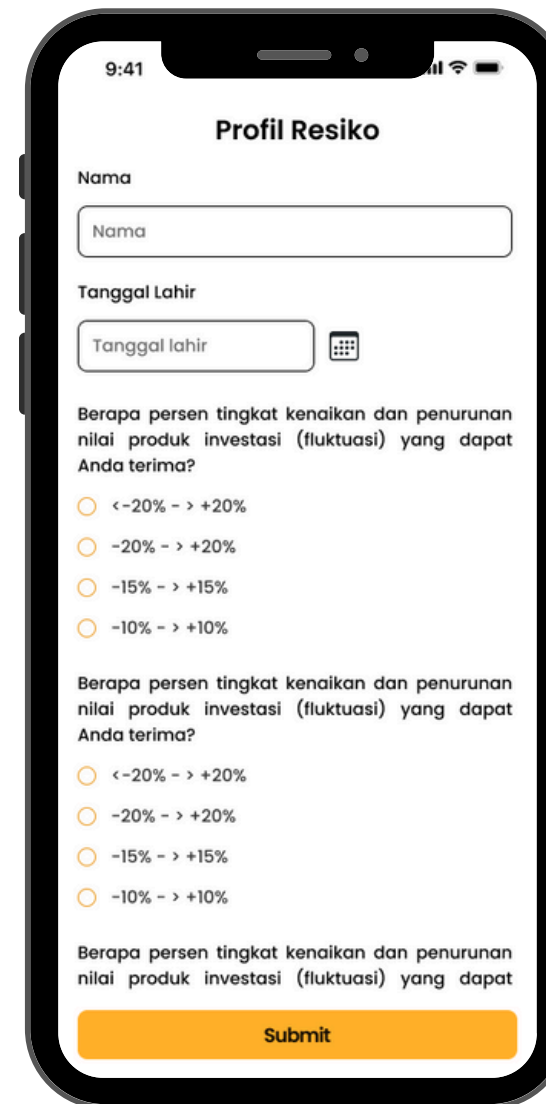

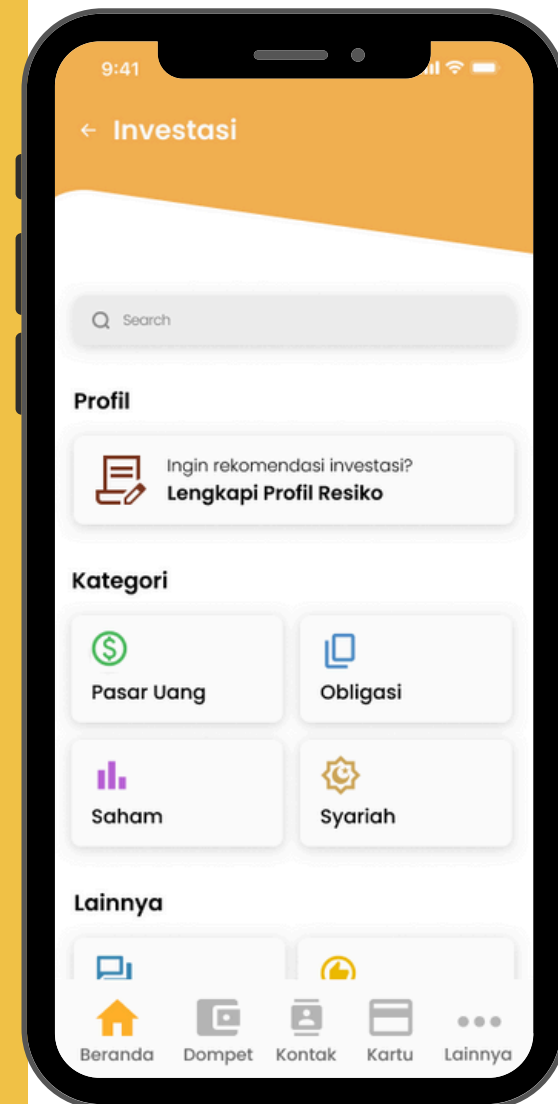

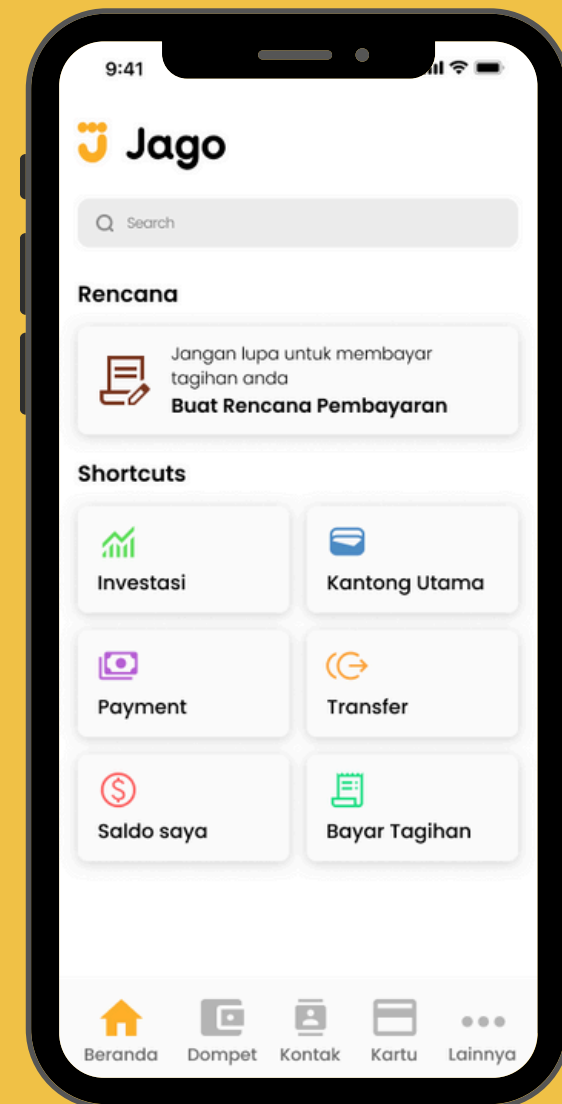

Buku Pintar

Description:

An app available for students to help them learn more efficiently with Augmented Reality. Students can scan the barcode of a physical book in this app and the 3d image can be processed automatically.
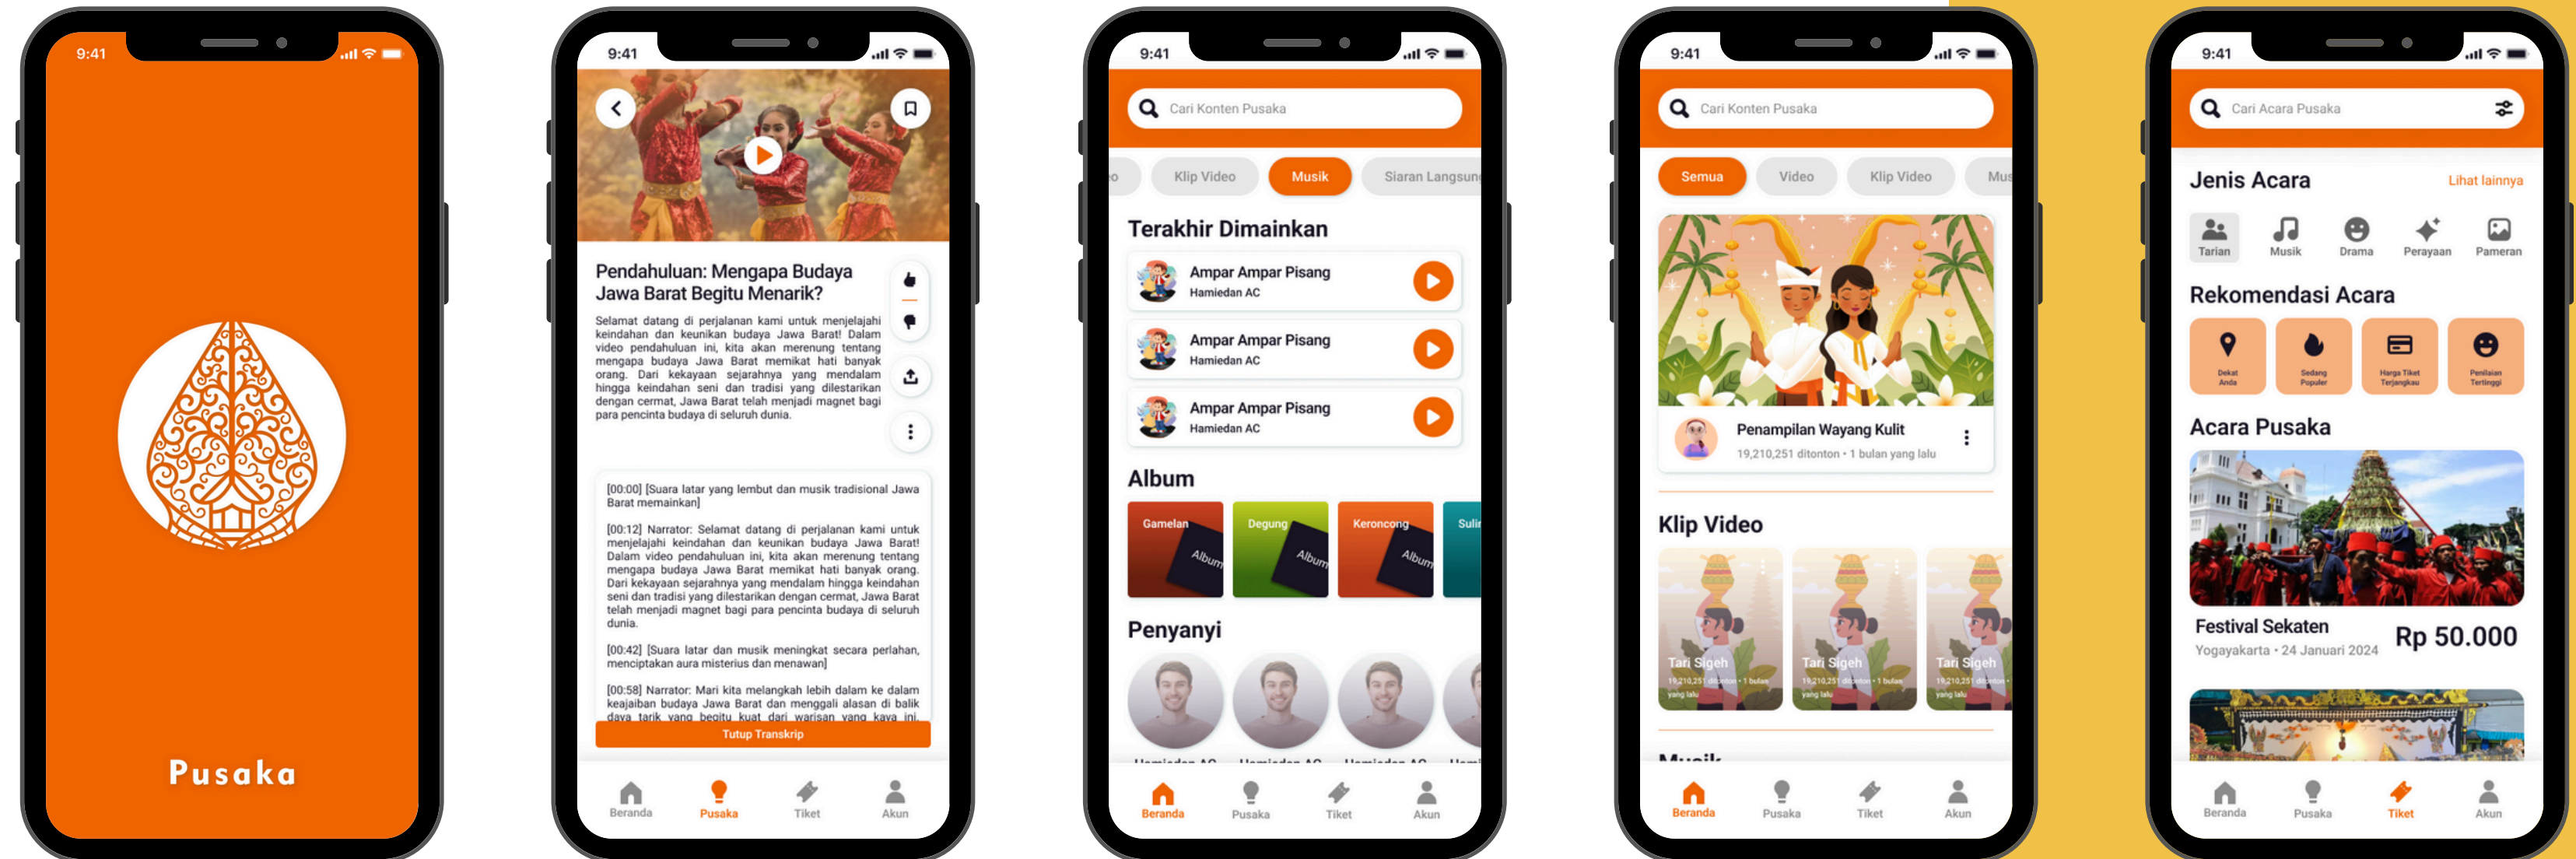

Innovations of Bank Jago

Description:

The app with a new feature is investment in Bank Jago. In this feature, people can use this feature to invest their money and consult with a counselor.
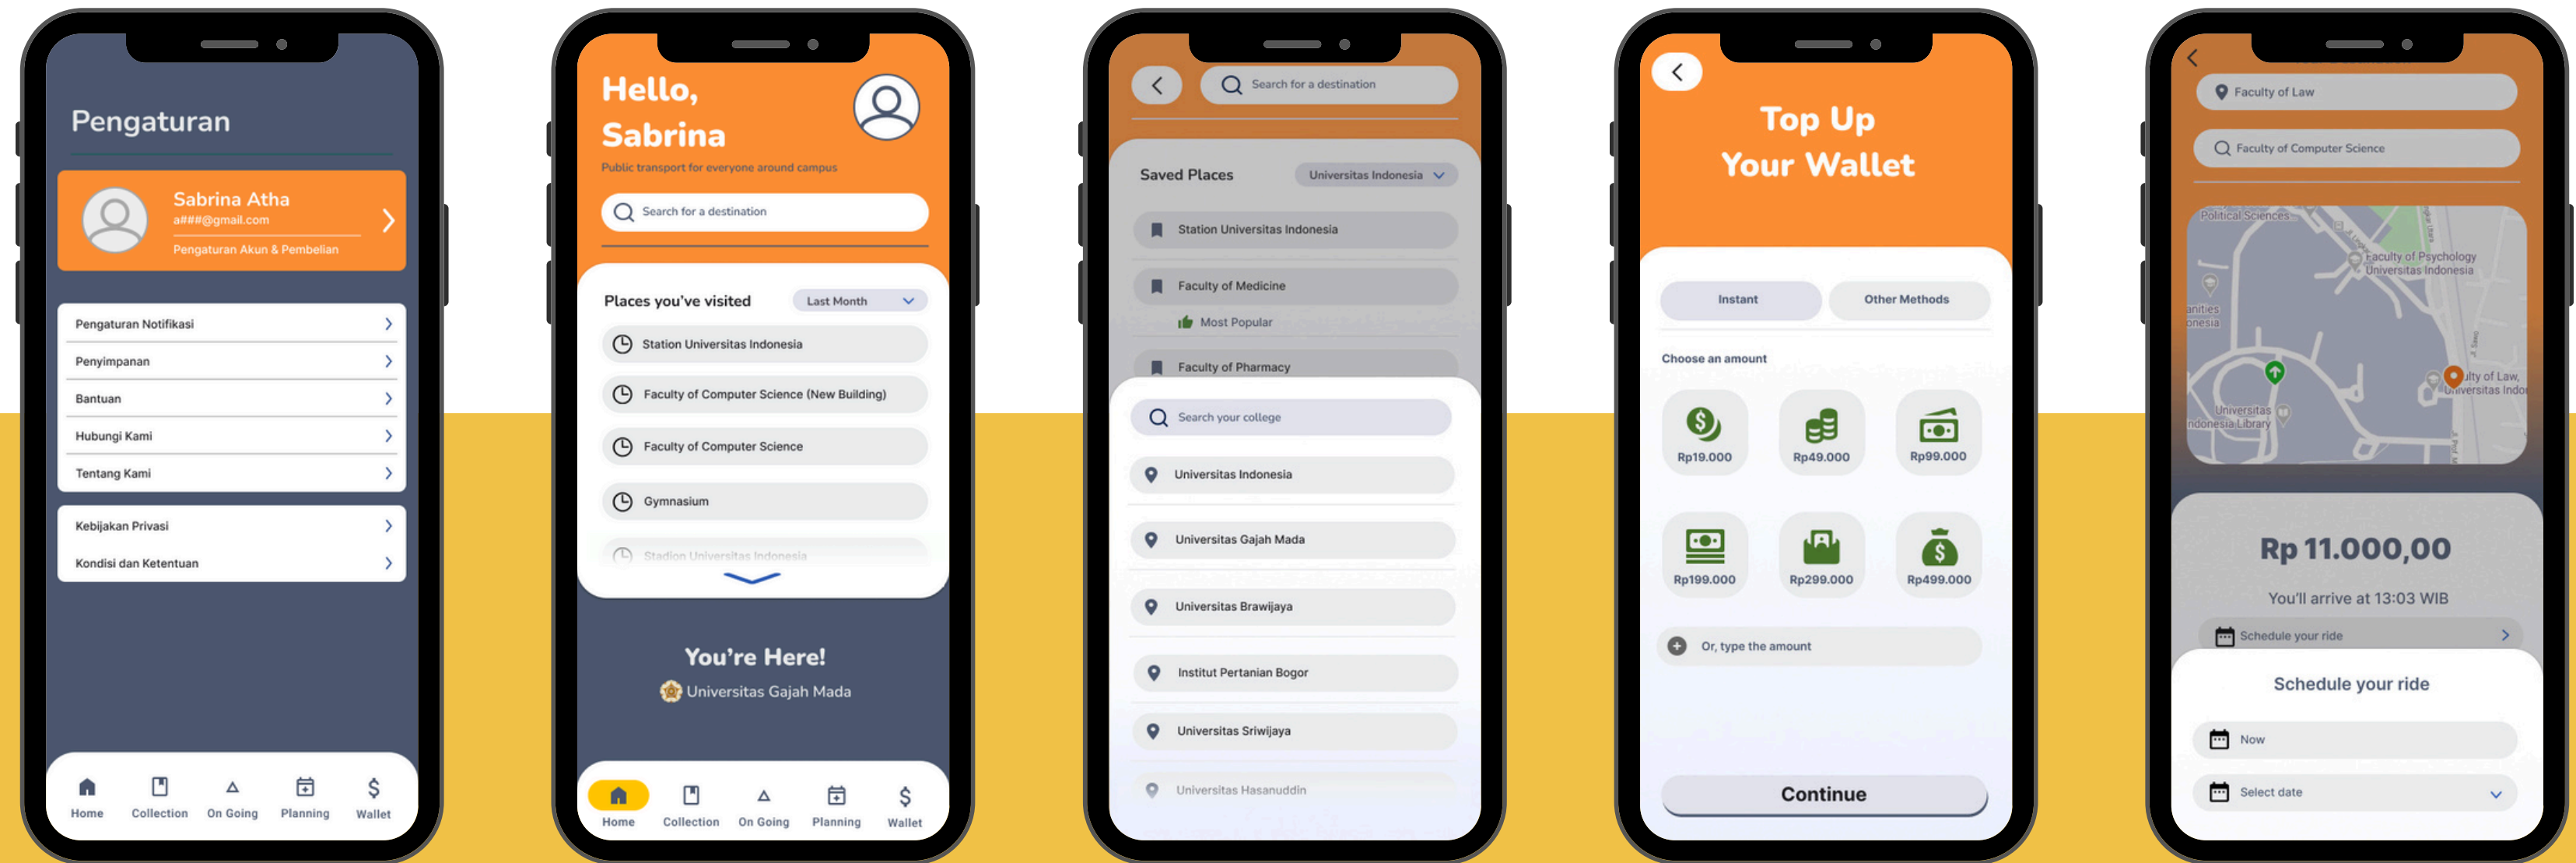

Pusaka

Description:

An app that can be used by people to learn more about Indonesian culture. The app can be used to search for more information, view various content such as videos, clips, and music, and can be used to purchase tickets for cultural events.
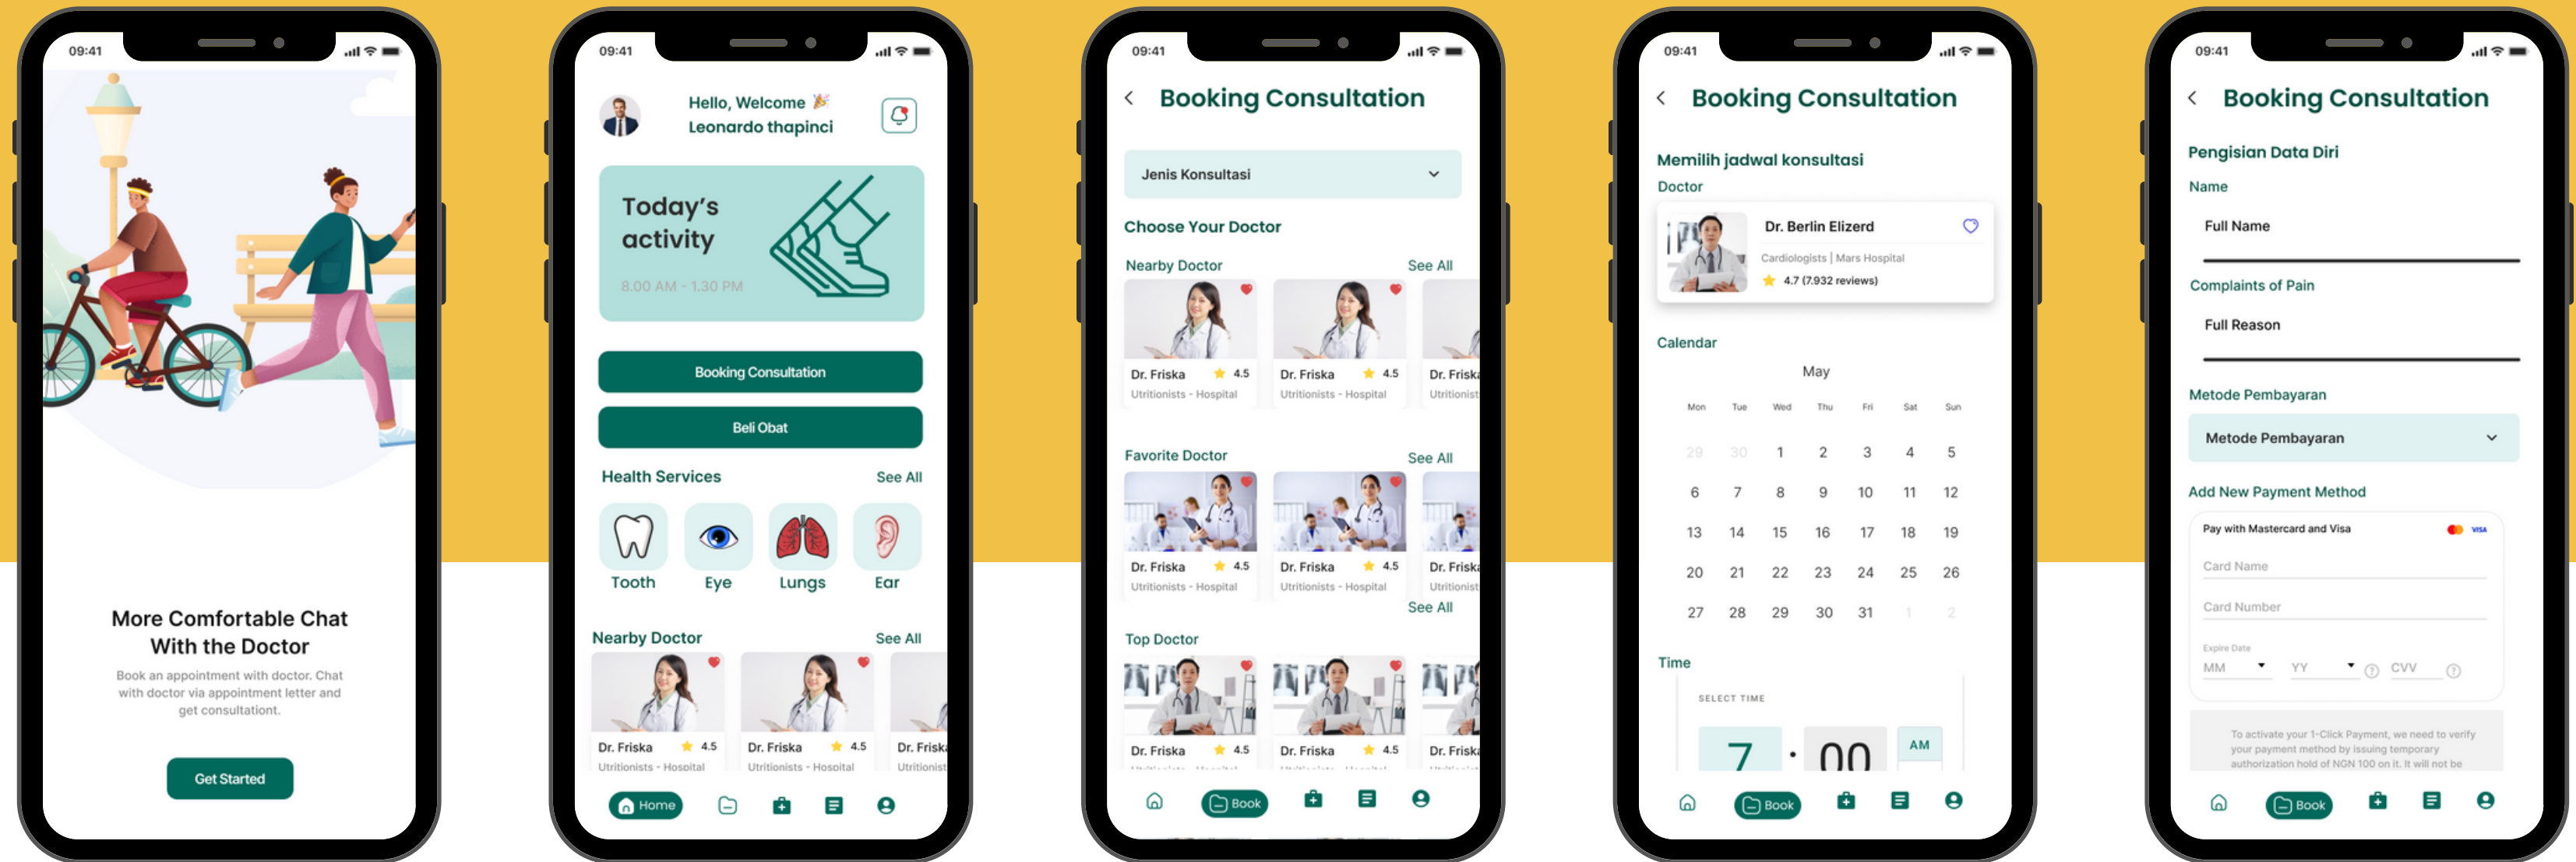

OjekUI

Description:

A special student application to call online motorcycle taxis around Universitas Indonesia. This application helps students to move places or buildings more easily and quickly.

Description:

The app is available for making appointments and consultations with doctors both online and offline. The app also has a feature to purchase medicine from nearby pharmacies.
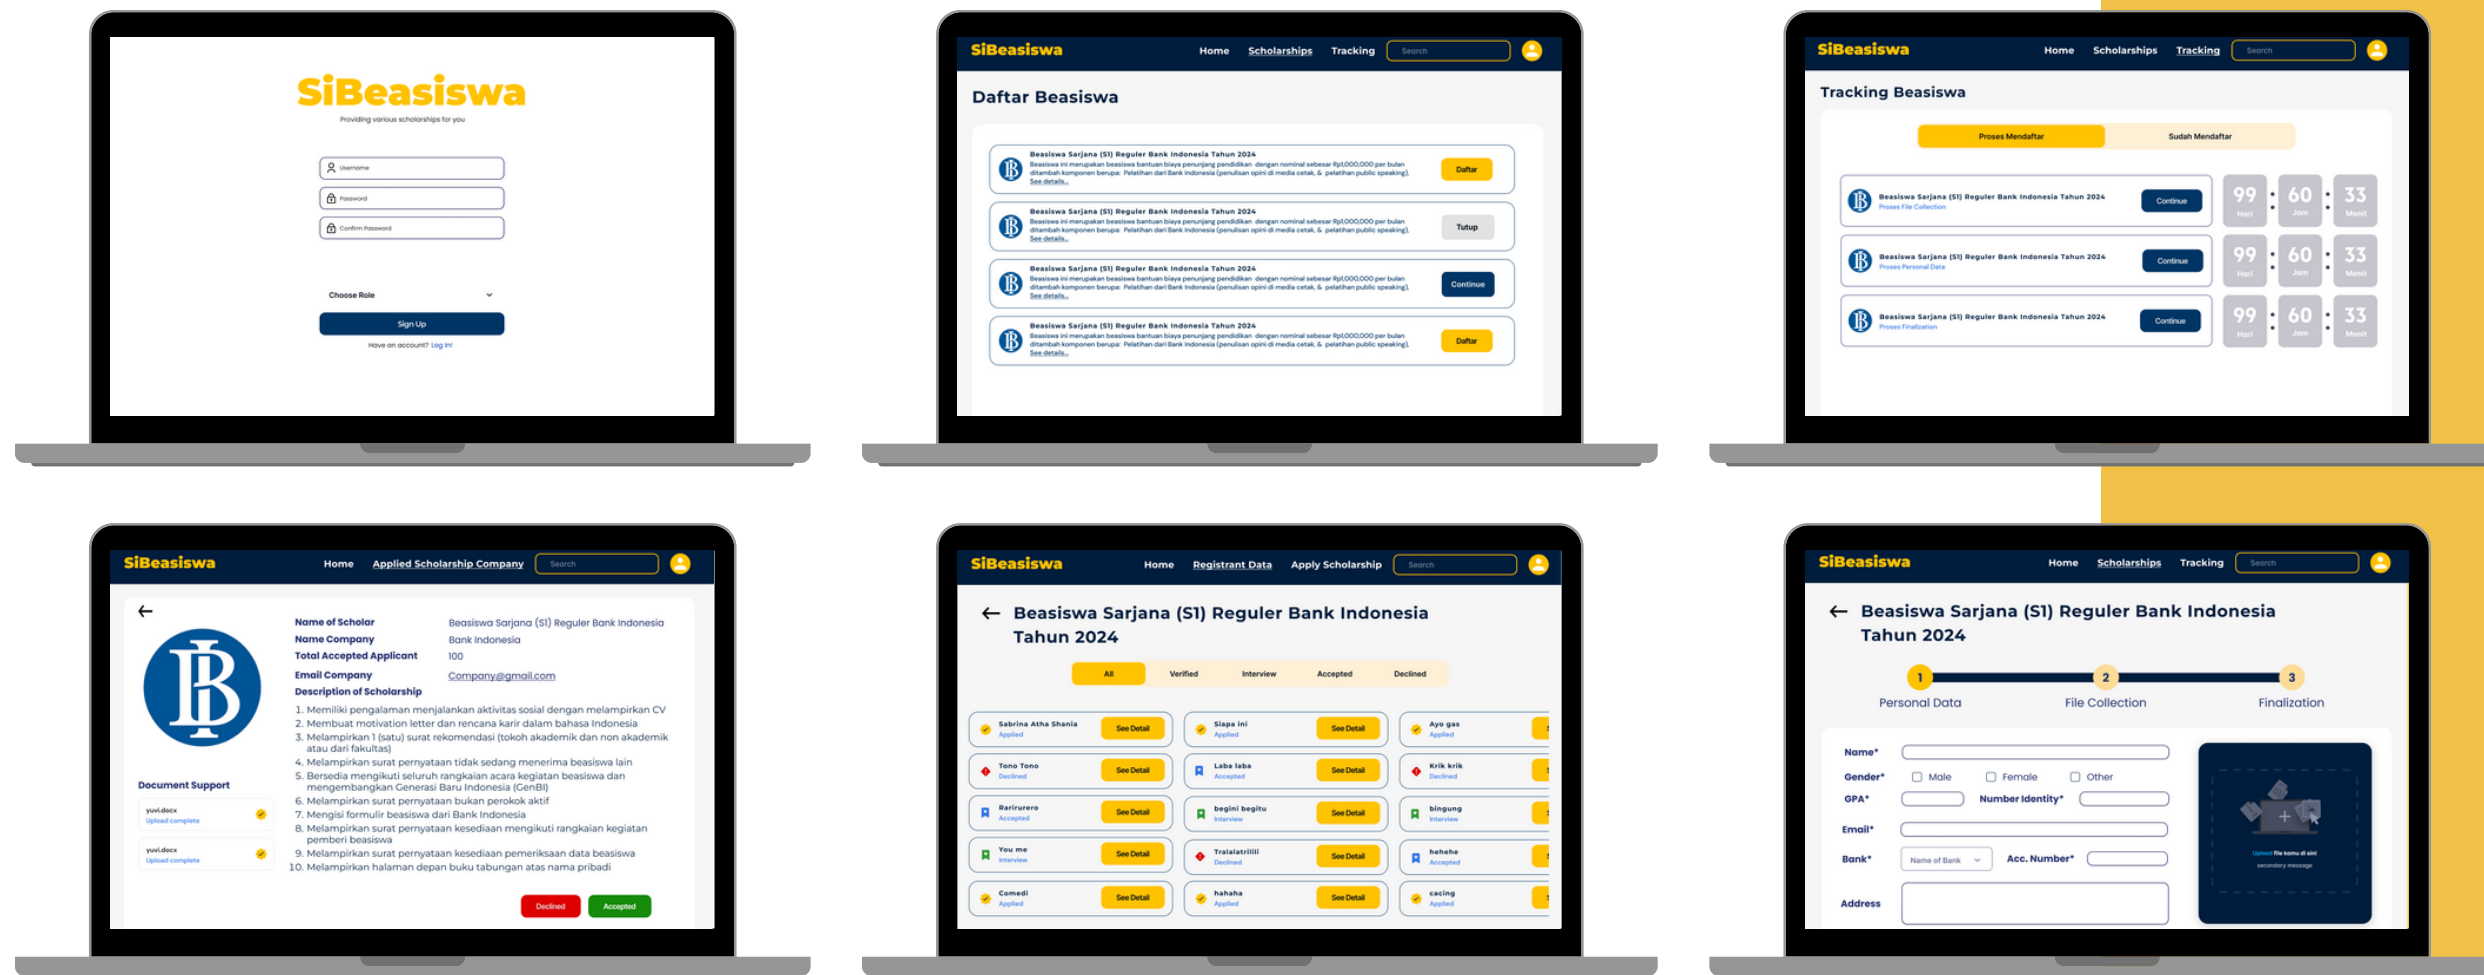

OKK UI 2024

Description:

Campus Life Orientation (OKK) is an event designed for new students at the University of Indonesia. This activity is one of the prerequisites for obtaining the status of Active Member of the University of Indonesia Student Family Association (IKM).

Si Beasiswa

Description:

The UI Scholarship website provides comprehensive information and resources for students seeking financial aid at the UI. It includes details on available scholarships, eligibility criteria, application procedures, and important deadlines. The website is designed to be user-friendly, ensuring easy navigation and access to essential information for both prospective and current students.
